Education

B.Tech, Computer Science, Sitare University

Course Completion - May '27

Relevant Coursework: Machine Learning, Java Programming, Advanced Data Structures and Algorithms, Python Programming, Object Oriented Programming Concepts, Artificial Intelligence, Database Management Systems

GPA: 8.9

Technical Skills

Programming Languages: Python, Java, JavaScript, C Programming Language

AI/ML & Data Science: Machine Learning, Natural Language Processing, Data Processing, Feature Engineering, Model Evaluation

Web Technologies: HTML, CSS, ReactJS, Flask, Django

Database Management: MongoDB, MySQL

Tools and Technologies: Linux, NumPy, Pandas, BeautifulSoup, Matplotlib, Git, GitHub, Render, SEO

Projects

UniVerse

An AI-powered, gamified campus platform that centralizes all university related services with secure university-email authentication and role-based access, built using React.js, Tailwind CSS, FastAPI, Flask-PyMongo, MongoDB Atlas, Python, python-dotenv, and Werkzeug security utilities.

Product_compare

A clean, responsive product comparison tool for Amazon and Flipkart that displays ratings, reviews, and Buyhatke-based price trends, built using Flask, BeautifulSoup, ScraperAPI, Pandas, Chart.js, and a simple HTML/CSS/JS frontend with Netlify hosting.

Number_guessing_game

A flask-based web application where users can register, log in, and play an interactive number guessing game with attempt tracking, built using Python, Flask, HTML, CSS, and JSON for local data storage.

Password_generator

A Python-based password generator was developed to create secure random passwords using letters, numbers, and special characters. A customizable password length feature was implemented, demonstrating Python randomization and string handling concepts.

Scholarships

100% B.Tech CS Scholarship, Sitare Foundation.

Oct '24 - Present
